

PHASE 5 – Creating a New Service Portal

Employee Raise Issue – ServiceNow Project Documentation

Objective

Create a dedicated Service Portal where employees can access the Raise Employee Issue Record Producer.

A. Create the Portal

1. Navigate to Service Portal Configuration.
2. Open Service Portals.
3. Click New.
4. Enter the following details:
 - Title: Requesting portal
 - URL suffix: employee_request
 - Homepage: ec_standard_home
 - KB home page: esc_knowledge_home
 - Login page: login
 - Logo: Upload an appropriate image
 - Main menu: Employee Center Menu
 - 404 Page: 404
 - Theme: Employee Center Coral Theme
5. Save the portal.

B. Create a New Employee Center Portal Page

1. Navigate to All menu → Service Portal.
2. Open Pages.
3. Click New.
4. Enter:
 - Title: Employee Center Portal Page
 - ID: employee_center_portal_page
5. Save the page.

Expected Result

A dedicated employee-facing portal is available using the employee_request URL suffix, with a custom page ready for widget configuration.
